

UDAY SALATHIA

Email: salathiauday@gmail.com Phone: 7350940019

Professional Summary

AI/ML engineering intern with hands-on internship experience in generative AI, specializing in Python, AWS Bedrock, and retrieval-augmented generation systems. Proven ability to build end-to-end RAG pipelines and integrate LLM services, with practical exposure to Flask and AWS cloud tools.

Technical Skills

Languages: Python, C, C++, Java, JavaScript

AI/ML: LLM integration, RAG systems, Pandas, NumPy

Cloud & Services: AWS Bedrock, AWS S3, boto3

Databases & Storage: SQL, Supabase

Web & Tools: Flask, Git, GitHub, Unity, Next.js, Node.js

Professional Experience

Nihilent Limited

Jan 2026 – present

Project Trainee Intern

- Developed generative AI features using AWS Bedrock for enterprise use cases.
- Produced technical documentation and coordinated cross-functional delivery.
- Conducted testing and validation of retrieval-augmented pipelines.

AR/VR Club GHRCEM

Sep 2025 – present

Technical Lead

- Led Unity-based development projects for 20+ student members.
- Organized workshops on emerging AR/VR technologies.

Projects

CarAI RAG-based Analysis System | AWS S3, AWS Bedrock, RAG

- Integrated S3 storage with Bedrock retrieve API to enable searchable knowledge base.
- Designed pipeline for automated document indexing and semantic retrieval.

Movie Recommendation System | Ollama, AWS Bedrock, LLM

- Built custom recommendation engine using open-source LLM and CSV data sources.
- Reimplemented pipeline on AWS Bedrock to compare performance and cost.

RFID Attendance Tracker | Arduino, RFID, Python, Flask

- Developed Arduino circuit for RFID tag reading and real-time attendance logging.
- Created Flask backend to store and display attendance records.

Education

G H Rasoni College of Engineering and Management

2023-2027

B.Tech (Computer Engineering) – CGPA: 9.6/10

New Times International School

2023

Grade XII – Percentage: 95.6%

Zebar School for Children

2021

Grade X – Percentage: 95.8%
