

VIDHI GUPTA

Email: vidhi1411@gmail.com Phone: +91 84849 46303

Professional Summary

Computer Engineering student with hands-on project experience in software development and data management, specializing in Python, MySQL, and fullstack development. Proven ability to design and implement database-driven applications and AR solutions, with exposure to Python, Node.js, and Unity.

Technical Skills

Languages: C, C++, Python, Java, JavaScript

Web & Tools: HTML, CSS, Node.js, Flask, Tableau

Databases: MySQL, SQL, DBMS

AI/ML & Quantum: Qiskit, Data Analysis Fundamentals

Other: Unity, Blender, OOPs, DSA

Professional Experience

AR/VR Club, GHRCEM

Sep 2025 – Present

Management Lead

- Led planning and execution of club events, coordinating cross-functional teams.
- Managed resource allocation and stakeholder communication for AR workshops.

ECell, IIT Bombay (Pune Chapter)

Aug 2023 – Aug 2024

Curations Lead

- Coordinated with startup founders and industry professionals for event series.
- Directed event logistics, enhancing team collaboration and audience engagement.

Projects

Library Management System | *MySQL, Python*

- Designed and implemented a database-driven system for efficient record handling.
- Optimized SQL queries to improve data retrieval speed and usability.

RFID Based Attendance Tracking System | *Arduino, Python, Flask*

- Developed RFID-enabled attendance monitoring with a Flask backend.
- Integrated Arduino hardware logic for real-time data capture.

Quantum Circuit Simulator Development | *Node.js, Qiskit*

- Built a quantum circuit simulator using Node.js interfacing with Qiskit.
- Achieved 4th place in the Quantum Valley Internal Hackathon.

Education

G.H. Rasoni College Of Engineering And Management, Pune

Expected Graduation: June 2027

B.Tech in Computer Engineering – CGPA: 8.68/10

St. Arnold's Central School, Pune

Completed May 2023

SSC & HSC
